DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-52, drawn to a subcombination- a printed circuit board with heat sink- classified in class 257, sub-class 706.
- II. Claims 53-57, drawn to combination – a light source mounted a circuit board attached to a heat sink - classified in class 362, subclass 218.

Inventions I and II are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination - a light source mounted a circuit board attached to a heat sink - as claimed does not require the particulars of the subcombination - a printed circuit board with heat sink- as claimed because each may be patentable without the details of the other. Each of the subcombinations has separate utility. A light source mounted a circuit board attached to a heat sink is applicable for displays and illumination,

whereas, a printed circuit board with heat sink has broad applications including computers, signaling equipment or copying and printing equipment.

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
3. During a telephone conversation on August 14, 2003, Mr. Toan P. Vo made an election with traverse to prosecute the invention of invention I, claims 1-52, and claims 53-57 were withdrawn from further consideration as being drawn to a non-elected invention.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
